Previous role	Technical Project Manager at GE Aerospace
Experience	Aerospace, Security, Construction, Energy
Technologies	AWS, Linux, Figma, Power BI, Oracle, Git, Active Directory, Excel, Google Sheets, Slack, macOS, HTML, Windows, SAP

The coolest side project I've built is…
A card-based RPG built in Godot using GDScript (Python-like language). We take it seriously, managing development through GitHub, with pre-commit hooks set up to lint code before pushing to branches.

Work experience

Technical Project Manager, GE Aerospace 〔GE〕   Jan 2024 - Nov 2024 (10m)

Innovation, Aviation, Engineering, Defense, Technology
Aerospace

`AWS` `Linux` `Figma` `Power BI` `Oracle` `Git` `Active Directory`

Undegraduate Degree (3.0) Bachelor of Fine Arts, English Lit | Spanish Lit
- PROMISE scholar.

Snippets

Personal Blog 🔗 **alligatorsmile.blogspot.com**
I moved to China and started blogging, and kept the habit up as I entered creative writing spaces, journalism, and the tech world.

Journalism 🔗 **mounthorebmail.com**
I've worked in journalism as a side gig, most recently in Wisconsin. I conducted interviews using Studs Terkel's techniques to write local articles with an oral history flavor. There I covered government, sports, and business news topics for Mt. Horeb Mail in Mt Horeb, Wisconsin.

More about me

I want to work for a company that...

Appreciates breakthrough thought, specifically those that value culture so much that it allows the business to grow.

Outside of work I...

Spend a lot of time with my colleague doing data science projects. People hear this and tell me to get a life, but I think this life is a good one.

The coolest side project I've built is...

A card-based RPG built in Godot using GDScript (Python-like language). We take it seriously, managing development through GitHub, with pre-commit hooks set up to lint code before pushing to branches.

Interests

Tennis, pickleball, kickball leagues, rock climbing, collecting certifications, developing videogames, early 90s JRPGs

Languages

English, Spanish
